 [sales@hamer.co.nz](mailto:sales@hamer.co.nz)

**COAST**<sup>®</sup>

**TRUSTED TOUGH.**<sup>™</sup>

COAST's build quality has led to some amazing survival stories:

The flashlight that fell 9 stories down an elevator shaft.  
And still worked.

The headlamp that spent a night in a cement mixer.  
And still worked.

The flashlight that spent a year submerged in a swamp.  
And still worked.

# COAST DUAL POWER TECHNOLOGIES

COAST is innovative with more than just beams and industrial design. We also put our collective heads together to create power sources and charging technologies that make all our lights even more useful and cost-effective. From price-conscious, yet class-leading alkaline batteries to the most advanced rechargeable systems, COAST leads the way in power.

## ALKALINE-DUAL POWER

Comes with COAST'S Extreme Performance Alkaline batteries and is compatible with COAST'S ZITHION-X™ Rechargeable battery.

**ZITHION-X™**

**ZITHION-X™**  
Rechargeable  
Battery

## RECHARGEABLE-DUAL POWER

Comes with COAST'S ZITHION-X™ Rechargeable battery and can be used with COAST'S Extreme Performance Alkaline batteries.

**ZITHION-X™**

**ZITHION-X™**  
Rechargeable  
Battery

## RECHARGEABLE

Comes with COAST'S embedded ZITHION™ Rechargeable battery and a USB Charging Cord.

**ZITHION™**

## RECHARGEABLE/CONTINUOUS RUN

Comes with COAST'S embedded ZITHION™ Rechargeable battery and a USB charging cord. Can also use plug-in AC power as needed.

**ZITHION™**

# CHARGING TECHNOLOGIES

### PRO-TEK CHARGING PORT

Charging made incredibly easy. Just slide open the PRO-TEK port on a PRO-TEK equipped COAST light to access the USB-based charging port. Plug-in to a local AC, DC, or USB power source, and re-charge your light right there. COAST ZITHION-X™ rechargeable batteries also come with a USB charging port and can be charged outside the light for added versatility and time savings.

Slides for charging port access.

AC, DC, USB

### PRO-FLEX CHARGING CAP

A clever charging system for certain COAST rechargeable pen lights. When the time comes to recharge, find a convenient AC, DC, or USB power source, slide the PRO-FLEX cap over the end of the light, and it's charging!

To recharge, simply re-cap the torch.

FEATURED ON: COAA9R (805341)

AC, DC, USB

### BATTERY LIFE INDICATOR

**GREEN**

BATTERY IS FULLY CHARGED

**RED**

BATTERY NEEDS CHARGING

**FLASHING RED**

BATTERY NEEDS IMMEDIATE CHARGING

# HANDHELD TECH – OPTICS

## PURE BEAM FOCUSING OPTIC

### ENHANCED FIELD OF VIEW

Our largest, Ultra View Flood Beam and our Bulls-Eye Spot Beam with transition halo.

ULTRA VIEW FLOOD BEAM

BULLS-EYE SPOT BEAM

## LONG RANGE FOCUSING OPTIC

### ENHANCED DISTANCE

Our longest, X-Range Spot Beam and our Broad View Flood Beam.

X-RANGE SPOT BEAM

BROAD VIEW FLOOD BEAM

## UNIVERSAL FOCUSING OPTIC

### COMPACT SIZE

A very broad, consistent flood beam and a long distance spot beam.

MAX VIEW FLOOD BEAM

LONG DISTANCE SPOT BEAM

## INSPECTION BEAM OPTIC

### CLEAR, CONSISTENT, DEFINED

Excellent for illuminating a crisply defined area at closer ranges.

LOW GLARE

## C.O.B. UTILITY BEAM

### EVERYDAY BRIGHT

A bright, general-use beam created with C.O.B. (Chip On Board) technology.

BROAD AND BRIGHT

# HANDHELD TECH – CONTROLS

## SLIDE FOCUS

Spot to flood light control at your fingertips. Shape your beam with the simple push or pull of your thumb.

- **PURE BEAM FOCUS**  
FLOOD & SPOT
- **LONG RANGE FOCUS**  
FLOOD & SPOT

## TWIST FOCUS

Twist the head of the light to move between a flood and a spot beam.

- **PURE BEAM FOCUS**  
FLOOD & SPOT
- **UNIVERSAL FOCUS**  
FLOOD & SPOT

## BEAM LOCK

Lock the beam anywhere you want it. Twist left to lock the beam in place. Twist back to the right to release.

## FRONT SWITCH

Easy one-handed o/off activation

## QUICK-CYCLE SWITCH

Control your light power with the push of a button.

Depending on the model, COAST lights may have one of the following illumination sequences:

- High | Low**
- High | Medium | Low**
- High | Strobe | Low**
- High | Strobe**

## REAR SWITCH/TAIL CAP DESIGN

Many of COAST's lights use a Quick-Cycle tail switch. A tail switch is a well-known feature in the tactical and professional markets. This allows the light to be held up-and-away from one's body while still providing light power control.

COAST's tail cap design also allows many of our lights to stand up straight for vertical lighting applications.

# HANDHELD TECH – BUILD & MATERIALS

## PURPOSE BUILT

COAST handheld lights are designed to provide both the internal and external functionality required to excel in their intended purposes.

## POLYSTEEL® TOUGH TECH

**Storm Proof**

**Dust Resistant**

**Crush Proof**

**Drop Proof**

Take a tough-as-nails stainless steel core, cover it in grip-textured poly-nylon, add a focusing, Pure Beam Optic, and you have POLYSTEEL.

### PURE BEAM FOCUSING OPTIC

All POLYSTEEL lights include COAST's patented Pure Beam Focusing Optic systems.

### TWIST FOCUS CONTROL

Focus the POLYSTEEL beam by simply twisting the head of the light

### POLY-NYLON OVER STAINLESS STEEL CORE

A fibreglass-reinforced polymer covers a stainless steel core.

## DURABLE

COAST handheld torches are manufactured to withstand constant use. Metal construction\*, heavy duty O-rings, and custom battery cartridges are all built to provide longevity and durability.

Not all design features are present on all lights.  
 \*Some COAST lights also use coating materials in their construction.

# ICON KEY

## OPTICS

### BEAM LOCK

Set the beam to stay how you like it. COAST BEAM LOCK® technology makes our SLIDE FOCUS® system even more valuable, with the option to lock the beam in place on spot, flood, or anywhere in between. Twisting the head to the left locks the beam in place, and twisting it back to the right releases the slide mechanism back into motion.

### LIGHT CONTROL LEVER

Adjust light intensity to meet your need. COAST headlamps featuring a Light Control Lever allow you to fine-tune light output with one hand by simply moving the lever positioned on the back of the headlamp.

### BULLS-EYE SPOT BEAM

Hit your target with power. Always on point, the Bulls-Eye Spot Beam fixes a bright “hot spot” on the object, surrounded by a soft halo of transitional light to increase the total field of view. From spotting animals in the dark to identifying objects, this beam cuts through darkness.

### PURE-BEAM FOCUSING OPTIC

Pack two powerful beams into one and seamlessly transition—with no halos or hot spots—between short and long-range viewing. COAST’s patented focusing technology adapts to your need. The Ultra View Flood beam delivers edge-to-edge clarity in a broad circle, and the™BULLS-EYE Spot Beam sends a sharp ray of light at a distance with a transitional halo around the spot to increase the effective viewing area.

### C.O.B. OPTIC

Get brilliant light tailored for specialised formats and use cases. COAST lights featuring Chip on Board (C.O.B.) technology cast a wide beam handy for up-close work—from a strip of LEDs built right onto the chassis, without a standard optic.

### REAR SWITCH TAIL CAP

Design enables hands free vertical lighting.

### DUAL-COLOUR WHITE & RED BEAM

The right light for the moment. The Dual-Colour White & Red Beam combines an all-white Utility Beam for general use with a red, anti-glare beam that prevents “night blinding” while also offering a tool for emergency signalling.

### SINGLE MODE

The same light every time. Keeping it simple with COAST single-mode lighting means you can rely on an even, bright white beam every time.

### DUAL-COLOUR WHITE & UV BEAM

See beneath the surface. The Dual-Colour White & UV Beam combines an all-white Utility Beam for general use with a UV light for detecting fluid leaks or checking security features on currency and identification cards.

### SLIDE FOCUS

One-handed beam control. COAST’s SLIDE FOCUS® system enables you to seamlessly transition between spot and flood beam with the push or pull of your finger. Responsive beam-shape control allows you to operate your light with a single hand and keep the other hand free.

### EMERGENCY

Signal duress with flashing, bright-red light. If times get tough, COAST lights outfitted with Emergency mode help attract much-needed attention.

### TURBO MODE

The XP lights not only feature standard light modes but also COAST’s signature Turbo Mode for overpowered light in critical situations.

### HINGED BEAM

Up, down, or straight ahead. All COAST headlamps feature a hinged, tilting head so that you can adjust the light’s direction and see right where you’re looking.

### TWIST FOCUS

Dial in the shape of light you need for the situation. COAST’s TWIST FOCUS™ system makes it easy to move between spot and flood beams by simply rotating the head of the flashlight.

### HIGH MEDIUM LOW

Control your light power with the push of a button. Cycle between full light, medium light and low light options.

### UTILITY BEAM OPTIC

Take it everywhere—the ultimate, all-around light for general use. COAST’s Utility Beam shines three individual, overlapping beams to create a broad, multi-bright field of light—with a concentrated, vivid center and diffuse, radiant edges.

### HIGH LOW

Control your light power with the push of a button. Cycle between high power and low power options.

### VARIABLE LIGHT CONTROL TECHNOLOGY

Easily adjust headlamp light output. COAST Variable Light Control Technology provides three ways to precisely regulate beam intensity.

### INSPECTION BEAM OPTIC

Never miss a detail. The Inspection Beam cuts clean, consistent light from edge to edge to evenly illuminate work spaces. Engineered for pen lights that fit in the pocket, this beam simplifies up-close work and brightens hard-to-reach objects.

### WIDE ANGLE FLOOD BEAM OPTIC

See the whole scene at once. The Wide Angle Flood Beam illuminates the broadest possible area with vivid, consistent light from edge to edge.

# CHARGING

## BATTERY CHARGES INSIDE LIGHT

COAST ZITHION™ non-ported rechargeable batteries are built to charge from within your COAST light using a COAST charging system.

## BUILT-IN USB-C PORT

Charge directly from AC, DC, and USB. Flashlights and headlamps with COAST PRO-TEK Charging include a direct-connect port for powering back up.

## BATTERY LIFE INDICATOR

With a battery-life indicator, you can always know when your battery needs to be recharged.

## CHARGING CAP

Power up your penlight by putting on its cap. The COAST Pro-Flex Charging Cap makes recharging as easy and intuitive as replacing the cap on a pen.

## CONTINUOUS AC|DC POWER

You can continuously run this work light using an AC/DC power cord.

## DUAL POWER

Options to stay ready. With COAST Dual Power technology, you have the choice to power your light with USB-rechargeable batteries or with standard alkaline batteries.

## DUAL POWER (LI-ION|CONTINUOUS)

You can power the work light by using the rechargeable battery or continuously run the light on an AC/DC power cord.

## ENERGY SAVING

Conserve battery life with precise light control. Make easy adjustments to match your light's intensity to the circumstance. COAST EAL multi-mode technology enables seamless transition from energy-saving low-light output to area-illuminating high output and anywhere in between.

## EXTERNAL DEVICE CHARGING

Power any USB-enabled device. Select COAST work lights feature a special external charging system that allows other devices to recharge directly from the work light's battery.

## OVERCHARGE/DISCHARGE PROTECTION CIRCUITS

Over charging and improperly discharging lithium batteries can cause a safety concern and hazardous risk to the user and it's surroundings. COAST batteries are built with overcharge/discharge protection, ensuring you and your battery are protected.

## PRO-TEK CHARGING

Charge directly from AC, DC, and USB. Flashlights and headlamps with COAST PRO-TEK Charging include a direct-connect port for powering back up.

## RECHARGEABLE DUAL POWER

Each COAST Rechargeable-Dual Power product comes with a ported ZITHION-X™ rechargeable battery or a non-ported ZITHION™ rechargeable battery and is compatible with either COAST Extreme Performance alkaline batteries or other brand-name battery types, depending on the product. This provides you the cost savings of using rechargeable and the flexibility of reverting to alkaline.

# DURABILITY

## CRUSH PROOF

The Crush Proof feature combines a super-tough stainless steel core with a grip-textured poly-nylon exterior to build unimaginable strength into highly functional lights.

## DROP PROOF

Drop Proof for use in rugged, high-impact environments.

## DUST RESISTANT

Take on any dirty work environment with this dust resistant light.

## STORM PROOF

Ride out storms with light. The crushproof, weatherproof area light shines bright or sends a signal when the wind and rain cause outages.

## WEATHERPROOF

Keep the light on no matter the weather. With IP54 resistance to splashes, sprays, and downpours.

## WATER RESISTANCE

Don't worry about the weather. COAST lights that have passed the IP54-level resistance tests are splash-resistant and built with durable materials that stand up to nature.

## WHAT IS IP54 Weatherproof?

A product with an IP54 rating is protected against dust ingress sufficient to prevent the product from operating normally but it's not dust tight. The product is fully protected against solid objects and splashing of water from any angle.

**ICON KEY**

**FEATURES**

**180-DEGREE HANDLE ROTATION**

Put the handle right where you need it. An adaptive handle on the work light enables you to rotate the handle up to 180 degrees for optimal placement.

**HARDHAT COMPATIBLE**

Rugged enough for the outside of the hardhat. COAST headlamps with Hardhat Compatible design include clips for attaching the light to the hat.

**180-DEGREE ROTATION (AREA LIGHT)**

Put the beam right where you need it. An adaptive head on the work light enables you to rotate the beam up to 180 degrees for optimal placement.

**MAGNETIC BASE**

Attach the light to magnetic surfaces. Lights with a Magnetic Base have magnets located on their base that allow the light to be attached to magnetic surfaces for easy storage or hands-free use.

**360-DEGREE HANDLE ROTATION**

Put the handle right where you need it. An adaptive handle on the work light enables you to rotate the handle up to 360 degrees for optimal placement.

**MAGNETIC TAIL CAP**

Attach the light to magnetic surfaces. COAST lights with a Magnetised Tail Cap have an integrated magnet that enable you to affix the light to magnetic surfaces for easy storage or hands-free use.

**BASE HANGING LOOP**

Hang the light for perfect illumination—with a base hanging loop that can attached for perfect positioning.

**REFLECTIVE STRAP**

Stay visible in the dark. Some COAST headlamps feature a Reflective Strap to increase safety and ensure user visibility in low light.

**HAT CLIP**

Store it away or shine it forward. The Two-Way Clip enables flexibility to stash the light in your pocket or clip it to the brim of your hat.

**EMERGENCY AREA LANTERN**

COAEAL22

**FEATURES**

- Dual-colour white & red beam
- Emergency light
- Energy saving
- High, medium & low settings
- Storm proof
- Base hanging loop

**1250 Lumens  
20m Beam  
IP54 Water Resistance**

**ALKALINE DUAL-POWER HEADLAMP**

COAFL85

**FEATURES**

- Twist focus
- Hinged beam
- Dual-colour white & red beam
- Hardhat compatible
- Reflective strap
- Dual-power
- High, medium & low settings

**650 Lumens  
192m Beam  
IP54 Water Resistance**

**INSPECTION BEAM CLIP TORCH**

COAG15

**FEATURES**

- Single-mode
- Tension clip

**20m Beam  
IP54 Water Resistance  
IPX4 Rated**

**INSPECTION BEAM PENLIGHT**

COAG20

**FEATURES**

- Single-mode
- Storm proof
- Inspection beam optic
- Alkaline Dual-power

**21m Beam  
IP54 Water Resistance  
IPX4 Rated**

**MULTI-PURPOSE HEAD TORCH**

COAHL5

**FEATURES**

- Utility beam optic
- Single-mode
- Hinged beam
- Hardhat compatible

**175 Lumens  
56m Beam  
IP54 Water Resistance  
IPX4 Rated**

**PURE BEAM FOCUSING TORCH**

COAHL7

**FEATURES**

- Hinged beam
- Light control lever
- Twist focus
- Variable light control technology
- Hardhat compatible

**305 Lumens  
127m Beam  
IP54 Water Resistance  
IPX4 Rated**

**PURE BEAM FOCUSING TORCH**

COAHL7R

**FEATURES**

- Hinged beam
- Light control lever
- Twist focus
- Variable light control technology
- Hardhat compatible

**240 Lumens  
104m Beam  
IP54 Water Resistance  
IPX4 Rated**

**RECHARGEABLE DUAL-POWER PENLIGHT**

COAHP3R

**FEATURES**

- Twist focus
- High & low settings
- Battery charges inside light
- Rechargeable dual-power
- Pro-tek charging
- Dust resistant
- Clip holder

**245 Lumens  
93m Beam  
IP54 Water Resistance**

**PURE BEAM FOCUSING TORCH**

COAHP7

**FEATURES**

- Beam lock
- High, medium & low settings
- Rear switch tail cap
- Slide focus

**650 Lumens  
200m Beam  
IP54 Water Resistance  
IPX4 Rated**

**ULTRA BEAM BODY LIGHT**

COAHX3

**FEATURES**

- Dual-colour white & UV beam
- Single-mode
- Hat clip
- Magnetic tail cap

**80 Lumens  
13m Beam  
IP54 Water Resistance  
IPX4 Rated**

**UTILITY BEAM  
BODYLIGHT**

COAHX4

**FEATURES**

- Dual-colour white & red beam
- Single-mode
- Hat clip
- Magnetic tail cap

**80 Lumens  
13m Beam  
IP54 Water Resistance  
IPX4 Rated**

**PURE BEAM  
FOCUSING TORCH**

COAHX5

**FEATURES**

- Beam lock
- High, medium & low settings
- Rear switch tail cap
- Slide focus

**360 Lumens  
130m Beam  
IP54 Water Resistance**

**PURE BEAM  
FOCUSING TORCH**

COAPS100

**FEATURES**

- High & low settings
- Rear switch tail cap
- Crush, drop & storm proof
- Dust resistant
- Clip holder

**110 Lumens  
42m Beam**

**PURE BEAM  
FOCUSING TORCH**

COAPS200

**FEATURES**

- High, medium & low settings
- Rear switch tail cap
- Twist focus
- Crush, drop & storm proof
- Dust resistant

**390 Lumens  
133m Beam  
IPX8 Rated**

**PURE BEAM  
FOCUSING TORCH**

COAPS400S

**FEATURES**

- High, medium & low settings
- Rear switch tail cap
- Twist focus
- Crush, drop & storm proof
- Dust resistant
- Magnetic tail cap

**440 Lumens  
210m Beam  
IPX8 Rated**

**PURE BEAM  
FOCUSING TORCH**

COAPS600

**FEATURES**

- Twist focus
- Crush, drop & storm proof
- Dust resistant
- High, medium & low settings

**740 Lumens  
266m Beam  
IPX8 Rated**

**PURE BEAM  
FOCUSING TORCH  
+ C.O.B**

COAPS700R

**FEATURES**

- C.O.B optic
- Emergency light
- Twist focus
- Dual-power
- Crush, drop & storm proof
- Dust resistant
- Magnetic tail cap

**800 Lumens  
260m Beam  
DUAL C.O.B. Area  
Lights**
