PRO-Fit™ Flare Kit

A CSW Industrials Company

PRODUCT DATA SHEET

Application • Creates precise and fast standard 45° flare or swage in copper and aluminum line sets for Mini-split HVAC units • The spinning hex flare bit forms a standard 45° flare, and the hex swage bit forms a consistent swage without splits, burrs, blemishes or uneven edges that typically cause fitting connection leaks

Recommended for • Copper & aluminum line sets • Mini-split HVAC units • Any application requiring a 45° flare

PRO-Fit™ Flare

PRO-Fit™ Swage

Characteristics | Features

- Burnishes flare surface reducing the risk of leaks
- Color-coded hex bits for easy ID
- Works with 2,000 RPM+ drills and drivers
- Stopper ensures a consistent length of the flare surface
- Tip guides the flaring bit into the tube and forms a standard 45° Flare
- Standard 1/4" Hex Shank fit directly into most power tools without an adapter
