

SILIGUN 4" Compact Caulking Gun Pro & Classic

Pro - Features

- MADE FOR THE PROFESSIONALS - The new and improved SILIGUN PRO brings all the features of the classic SILIGUN to the professional end user.
- MORE DURABLE - SILIGUN PRO has strong, yet lightweight aluminum body frame, and is made to work in the toughest scenarios.
- THE MOST COMPACT CAULK GUN - At just 4" it's no bigger than the tube of caulk it's dispensing. Cut off the excess tubing to reach even tighter spaces. No more oversized, heavy caulk guns that limit your reach.
- NO DRIP DESIGN - When you release the trigger, the flow stops. No more run-on mess that traditional caulk guns leave.
- EFFICIENT DISPENSING - SILIGUN PRO has a powerful 24:1 thrust ratio and is suitable to work with any 10 oz tube (310 ml) on the market.

Pro | Aluminium

Classic - Features

- THE MOST COMPACT, LIGHTWEIGHT, DRIP-FREE CAULK GUN - Patented design - Extreme duty caulk and silicone gun made of strong yet light ABS plastic - easy to hold and fits any toolbox. Total Length: 4" (YES JUST 4") Weight: 295g.
- FOR ALL YOUR CAULKING AND FILLING TASKS - With built-in anti-drip features, can be used for all 10 oz cartridges / sausage packs (310 ml). Suitable for use with latex, acrylic, silicone caulks, etc.
- IDEAL FOR TIGHT SPACES AND AWKWARD ANGLES - Allows you to reach even the tightest places (i.e. behind the toilet). If you can get your hand in there, you can work with the SILIGUN.
- EASY TO LOAD - takes seconds to load and seconds to remove. A clean job is ensured due to the drip free technology. Full instructions included. Cleaning is a breeze.
- EXCELLENT FLOWING POWER - 12:1 high thrust ratio delivers a thick adhesive flow, and dispenses caulk more efficiently.

Classic
