

nkt cables MV cable joints and terminations

For XLPE cable and equipment interconnections

nkt cables is a world leader in MV and HV cable accessories, with more than 50 years' experience of silicone rubber cable accessories.

nkt cables' range of MV terminations, joints and screened connectors continues to grow, as a result of ongoing investment in manufacturing processes, materials and product development.

In addition, nkt cables offers a complete solution for transmission system applications, including push-on, composite and porcelain dry-type and oil-filled terminations, cable joints and switchgear / transformer connectors up to 400 kV and above.
